

SUNIDHI SHARMA

☁ Cloud & Security Engineer | AWS ☁

+91 8091014689 • sharmasunidhi342@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

OBJECTIVE

Seeking a Cloud Engineer or Junior DevOps role to leverage hands-on AWS expertise and Python proficiency to design scalable, secure cloud infrastructure. Passionate about serverless solutions, cost optimization, and security best practices.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS EC2, VPC, Lambda, RDS, S3, DynamoDB, ALB, CloudFront, IAM, SNS, Rekognition
- **Security & DevOps:** IAM policy design, VPC hardening, Auto Scaling, Multi-AZ, Docker, Terraform
- **Programming:** Python (Boto3), Bash, Git/GitHub, Serverless development

KEY PROJECTS

- **AWS Security Posture Scanner & Compliance Checker** [\[GitHub\]](#)
 - Automated 50+ security checks across S3, EC2, RDS, and IAM • <2 min scan duration via serverless Lambda & EventBridge
 - Real-time SNS alerts & DynamoDB logging for Critical risks • 80% manual audit reduction with \$0 infrastructure cost.
- **High-Availability WordPress on AWS** [\[GitHub\]](#)
 - 99.9% uptime using ALB, Auto Scaling, RDS Multi-AZ • 65% latency reduction via CloudFront CDN • <15min RTO with automated backups • VPC security with least-privilege IAM
- **AI-Driven Security Automation Pipeline** [\[GitHub\]](#)
 - Serverless Lambda + Rekognition pipeline • 94% accuracy threat detection (<2 sec latency) • 500+ images/day • \$2,400/month savings vs. manual moderation • 95% cost reduction via pay-per-invocation

EXPERIENCE & TRAINING

- **Cloud Computing Specialization** – Internshala (8 weeks, 2025) • AWS fundamentals, Lambda, VPC design, serverless architecture
- **AWS Cloud Practitioner Essentials** – AWS Skill Builder
- **AWS Cloud Quest** – Cloud Practitioner

EDUCATION

B.Tech Computer Science & Engineering • HPU UIT Shimla • Expected May 2027 • CGPA: 8.4/10

TOOLS

- Docker
- Linux
- Terraform
